- **Brown dress belt.**
- **Brown dress shoes.** No sneakers or sandals

Why

Our goal in worship is to be a complement to the service, not a distraction. Because we are a part of a group, our clothing choices highlight our unity, while also acknowledging that the incline, angled sight-lines, and construction of the choir loft, steps, and platform areas require conservative clothing choices. What is perfectly appropriate for school, home, or the weekend may not work for a Sunday you are leading worship.

Need help?

A student should never skip because they can't afford the requested clothes. If you need a little help, just reach out to your group's leader right way and we'll confidentially get you taken care of. You're important, and we need you.

Can, but just not gonna?

We know it's sometimes difficult to find the right thing to wear, yet please do it anyway. But, if you're not willing or able to follow the guidance above, please sit the event out instead of sneaking around. We do not want to potentially embarrass you by asking you to change, but we will have to do so.

Women
